OUR TEAM OF DESIGNERS

“Let me introduce you to our team of designers who can turn the lighting fixtures of your dreams into reality. It is our aim to design lighting fixtures down to the very last detail which, when complete, will make an elegant addition to your interior. Naturally, we put a significant emphasis on functionality and safety when designing our fixtures. With hundreds of successful projects under our belt, we have a proven ability to work to a wide range of designs. This ability, combined with our exceptional manufacturing capabilities, mean that we can produce lighting fixtures that chime perfectly with your individual interiors, be they traditional or modern, taking into account the requirements of different cultures.”

Jiří Vencel, Head of Design

OUR OFFER

Thanks to our exclusive experience in the field and our flexible production facilities, we can create unique or large-scale lighting to our own designs or to yours. Our experienced team of designers can accommodate all the needs and requirements our customers may have. Our highly skilled craftsmen ensure high standards, top quality and original lighting products. 3D sketches created using SolidWorks software enable our customers to see how their lighting will look and to fine tune the details.
