ABOUT ARTGLASS

ARTGLASS Ltd. is a purely Czech pro-export corporation that is growing dynamically without foreign capital. The company operates in 45 global markets and is continuously working towards entering new ones with humility and respect. ARTGLASS has been active in the market for 25 years with great success, and has the vision to become a world producer of original and design-led lighting made from high-quality materials with a high proportion of manual craftsmanship. The company currently employs around 100 qualified employees and works very closely with renowned Czech glassmakers and world-famous designers. ARTGLASS's great strength is the company's in-house team of progressive designers, whose original and unique ideas in terms of high-quality design now adorn countless interiors around the world. After 25 years of continuous development it is currently possible to divide the production programme at ARTGLASS Ltd. into three branches: firstly, the production of traditional Czech crystal chandeliers – we are a proud follower of more than 500 years of tradition in chandelier production in the Czech Republic; secondly, custom lighting – lighting projects for private residences, religious buildings (churches, temples, mosques), restaurants, hotels, etc. We offer our clients a comprehensive solution for lighting, from the design and consultation phase through to advice and assembly. We have a specially trained team of assemblers who install our products in clients' premises around the world. Finally, modern design collections – our original vision of transforming a project installation into a smaller model that will suitably complement a modern home. These contemporary design collections are displayed in all their glory in our new „Vision“ catalogue, which can be downloaded at www.artglass.cz.

PRODUCTION

ARTGLASS is constantly investing in its development, new technologies and the skills of its employees. Lighting designs and models are created in our own design studio, which is equipped with state of the art technology. Using 3D software we are able to visualise the entire installation in its interior. We then elaborate on this proposal down to the last detail, including the preparation of technical documentation for production itself. We can be proud of the fact that the majority of the manufactured parts are the result of work by our skilled craftsmen. The company has a modern metal workshop where our specialists are able to construct even the most demanding metal structures for our installations.

ARTGLASS cooperates with most Czech glassworks, both in the production of chandeliers with classic trimmings or when working on special installations. Our lighting installations use modern lighting technology and lighting control to enhance the beauty of our glass while meeting all the lighting requirements of the room. All of our products meet the required standards and regulations and are certified by renowned global testing laboratories. Our goal is to introduce the beauty of Czech glass and the art of our people, whose work we are so proud of, to the whole world.

at
light + building

Prestigious international exhibition Light + Building 2018 has ended. This year's brand new design concept of our exhibition, starting from the construction of the stand to the exhibited installations, brought us positive feedback from the visitors from around the world.

90% of the visitors of our stand were from the professional public and brought us the inquiries especially from the project field from many world markets. A large number of visitors came from Asia - India, China; the US and the Middle East. This year's exhibition was very successful for our company in all its aspects, please enjoy a few photos from the exposition.

SINGAPORE PROJECT LOTUS

It was an honor and a great pleasure when our customer asked us to produce a lotus flower-shaped lighting fixture for a private Buddhist temple. Lotus is in the Buddhist spiritual understanding the symbol of the beginning, the origin of life, the rebirth, and the purity. Let our lighting fixture, like a lotus flower in the nature that grows out of the mud to finally appear clean and radiant on the water surface, shine in that distant temple and brighten the eyes of the incoming in their spiritual moments.

The Tibetan Óm mani padmé húm on each individual lotus leaf of the fixture was also custom-made with respect to customer's request.

INVITATION FOR CELEBRATION OF 25 YEARS OF ARTGLASS

WHEN: 1st of June 2018, from 17:00

WHERE: Dolní Černá Studnice
4568 2 Pěňčín, Czech Republic

We would like to inform you that in June 2018 ARTGLASS will be celebrating 25 years on the market and we would like to celebrate this important anniversary with you. The celebration will be held outside in the ARTGLASS areas in Dolní Černá Studnice – there will be seating in large marquees, refreshments and musical productions.

We will be very pleased if you attend this anniversary celebration.
