ARTGLASS
CHANDELIERS FROM BOHEMIA

ABOUT ARTGLASS

ARTGLASS Ltd. is a purely Czech pro-export corporation that is growing dynamically without foreign capital. The company operates in 45 global markets and is continuously working towards entering new ones with humility and respect. ARTGLASS has been active in the market for 25 years with great success, and has the vision to become a world producer of original and design-led lighting made from high-quality materials with a high proportion of manual craftsmanship. The company currently employs around 100 qualified employees and works very closely with renowned Czech glassmakers and world-famous designers. ARTGLASS's great strength is the company's in-house team of progressive designers, whose original and unique ideas in terms of high-quality design now adorn countless interiors around the world. After 25 years of continuous development it is currently possible to divide the production programme at ARTGLASS Ltd. into three branches: firstly, the production of traditional Czech crystal chandeliers – we are a proud follower of more than 500 years of tradition in chandelier production in the Czech Republic; secondly, custom lighting – lighting projects for private residences, religious buildings (churches, temples, mosques), restaurants, hotels, etc. We offer our clients a comprehensive solution for lighting, from the design and consultation phase through to advice and assembly. We have a specially trained team of assemblers who install our products in clients' premises around the world. Finally, modern design collections – our original vision of transforming a project installation into a smaller model that will suitably complement a modern home. These contemporary design collections are displayed in all their glory in our new „Vision“ catalogue, which can be downloaded at www.artglass.cz.

PRODUCTION

ARTGLASS is constantly investing in its development, new technologies and the skills of its employees. Lighting designs and models are created in our own design studio, which is equipped with state of the art technology. Using 3D software we are able to visualise the entire installation in its interior. We then elaborate on this proposal down to the last detail, including the preparation of technical documentation for production itself. We can be proud of the fact that the majority of the manufactured parts are the result of work by our skilled craftsmen. The company has a modern metal workshop where our specialists are able to construct even the most demanding metal structures for our installations.

ARTGLASS cooperates with most Czech glassworks, both in the production of chandeliers with classic trimmings or when working on special installations. Our lighting installations use modern lighting technology and lighting control to enhance the beauty of our glass while meeting all the lighting requirements of the room. All of our products meet the required standards and regulations and are certified by renowned global testing laboratories. Our goal is to introduce the beauty of Czech glass and the art of our people, whose work we are so proud of, to the whole world.

INTRODUCING **PURE COOLNESS** FROM GEOMETRY COLLECTION

The Pure Coolness lighting fixture features geometric shapes made of sheets of material (plexiglass and polycarbonate), in combination with cool metal lit by LED chips. The geometric spiral created by the layers of suspended flat sheets creates the illusion of movement.

INTRODUCING **CARA** FROM PARTICLES COLLECTION

Cara is the journey, the shift in concept: it is a fantastic wild flower that hides the spirit of blooming summer meadows. The basis is a wire construction that carries glass components, the effect elements of the whole design. It is a rich and impressive lighting fixture that does not deny the playfulness and variability of its essence. It is certain to be the star feature in any interior.

THE GLASS GARDEN

ARTGLASS this year, on behalf of its designer Veronika Šindelářová, took part in the fourth year of the Glass Garden exhibition. It is an unusual open-air gallery, where visitors can enjoy the timeless artistic originals, design novelties, as well as traditional craft demonstrations.

The presented installation LUMINIS has become an integral part of the growing spruce for several days in the garden of a functionalist villa in Nový Bor. Partly, hidden in the shadow of the bushes, LUMINIS was mystical and encouraged the visitors to discover the beauty of the glass. Merging with nature helped to create a fragile flower-like look.

ACKNOWLEDGEMENT

Dear customers and business partners,

we would like to thank you for your continuous confidence that you have placed in us over the past 25 years. We look forward to bring joy and light to your homes with our lighting fixtures in many years to come.

On behalf of the whole ARTGLASS team

Petr, Dana and Vlastimil

INTRODUCING **MARIE THERESE** lighting fixtures

Marie Therese lighting fixtures are guaranteed to impress guests in your sitting room, just as in luxury palaces, residences and villas. Just one Marie Therese lamp is enough to provide that special touch to make any interior distinctive, serving as a beautiful decoration by day, and a scintillating crystal-trimmed lighting fixture by night. A combination of several Marie Therese lighting fixtures, including chandeliers, wall lamps, floor lamps, table lamps or unique custom-made large-scale Marie Therese fixtures, is the perfect luxury lighting for large interiors, such as palaces, castles, luxury seats, lobbies of public buildings, parliaments, town halls, churches and other important institutions.
