ARTGLASS  
CHANDELIERS FROM BOHEMIA

**ARTGLASS**  
CHANDELIERS FROM BOHEMIA

Jablonec nad Nisou

## ABOUT ARTGLASS

ARTGLASS Ltd. is a purely Czech pro-export corporation that is growing dynamically without foreign capital. The company operates in 45 global markets and is continuously working towards entering new ones with humility and respect. ARTGLASS has been active in the market for 25 years with great success, and has the vision to become a world producer of original and design-led lighting made from high-quality materials with a high proportion of manual craftsmanship. The company currently employs around 100 qualified employees and works very closely with renowned Czech glassmakers and world-famous designers. ARTGLASS's great strength is the company's in-house team of progressive designers, whose original and unique ideas in terms of high-quality design now adorn countless interiors around the world. After 25 years of continuous development it is currently possible to divide the production programme at ARTGLASS Ltd. into three branches: firstly, the production of traditional Czech crystal chandeliers – we are a proud follower of more than 500 years of tradition in chandelier production in the Czech Republic; secondly, custom lighting – lighting projects for private residences, religious buildings (churches, temples, mosques), restaurants, hotels, etc. We offer our clients a comprehensive solution for lighting, from the design and consultation phase through to advice and assembly. We have a specially trained team of assemblers who install our products in clients' premises around the world. Finally, modern design collections – our original vision of transforming a project installation into a smaller model that will suitably complement a modern home. These contemporary design collections are displayed in all their glory in our new „Vision“ catalogue, which can be downloaded at [www.artglass.cz](http://www.artglass.cz).

## PRODUCTION

ARTGLASS is constantly investing in its development, new technologies and the skills of its employees. Lighting designs and models are created in our own design studio, which is equipped with state of the art technology. Using 3D software we are able to visualise the entire installation in its interior. We then elaborate on this proposal down to the last detail, including the preparation of technical documentation for production itself. We can be proud of the fact that the majority of the manufactured parts are the result of work by our skilled craftsmen. The company has a modern metal workshop where our specialists are able to construct even the most demanding metal structures for our installations.

ARTGLASS cooperates with most Czech glassworks, both in the production of chandeliers with classic trimmings or when working on special installations. Our lighting installations use modern lighting technology and lighting control to enhance the beauty of our glass while meeting all the lighting requirements of the room. All of our products meet the required standards and regulations and are certified by renowned global testing laboratories. Our goal is to introduce the beauty of Czech glass and the art of our people, whose work we are so proud of, to the whole world.

## INTRODUCING REFLECTION

This installation, consisting of several segments of irregular shapes, is inspired by the image of a single drop falling onto the water's surface. The living surface of the water is simulated by lines on unusual innovative material, the subject of everyday use, which gives it a new artistic use. Its reflection mirrors not only the glittering stone, but also the moment of presence, the surrounding world, the record of the situation that is the reflection / capture of today's society. The transformation of this shape also resulted in metal segments, in which the intentional deformation emphasises the dynamics of movement.

Prague International Design Festival  
Výstaviště Praha Holešovice

## INVITATION **Designblok**

**des-  
ignblok  
18**

We are looking forward to seeing you at Designblok 2018, where we are exhibiting for the first time. Designblok, Prague International Design Festival is the largest selection of design and fashion show in Central Europe. Designblok traditionally shows a selection of works of designers and manufacturers from all over Europe. For our first exhibition at this festival we have chosen to present the latest work from the new modern VISION catalog.

## INTRODUCING **BASKET AND CEILING FITTINGS**

Basket and ceiling crystal fittings of different shapes are suited to both modern and classic interiors, whether in gold, silver or one of the other surface finishes available.

An endless combination of crystals in different shapes and sizes is available and we have a wide range of basket and ceiling fittings.

Crystal basket chandeliers are popular with interior designers and architects working on hotels or luxury homes.
