ARTGLASS
CHANDELIERS FROM BOHEMIA

ABOUT ARTGLASS

ARTGLASS Ltd. is a purely Czech pro-export corporation that is growing dynamically without foreign capital. The company operates in 45 global markets and is continuously working towards entering new ones with humility and respect. ARTGLASS has been active in the market for 25 years with great success, and has the vision to become a world producer of original and design-led lighting made from high-quality materials with a high proportion of manual craftsmanship. The company currently employs around 100 qualified employees and works very closely with renowned Czech glassmakers and world-famous designers. ARTGLASS's great strength is the company's in-house team of progressive designers, whose original and unique ideas in terms of high-quality design now adorn countless interiors around the world. After 25 years of continuous development it is currently possible to divide the production programme at ARTGLASS Ltd. into three branches: firstly, the production of traditional Czech crystal chandeliers – we are a proud follower of more than 500 years of tradition in chandelier production in the Czech Republic; secondly, custom lighting – lighting projects for private residences, religious buildings (churches, temples, mosques), restaurants, hotels, etc. We offer our clients a comprehensive solution for lighting, from the design and consultation phase through to advice and assembly. We have a specially trained team of assemblers who install our products in clients' premises around the world. Finally, modern design collections – our original vision of transforming a project installation into a smaller model that will suitably complement a modern home. These contemporary design collections are displayed in all their glory in our new „Vision“ catalogue, which can be downloaded at www.artglass.cz.

PRODUCTION

ARTGLASS is constantly investing in its development, new technologies and the skills of its employees. Lighting designs and models are created in our own design studio, which is equipped with state of the art technology. Using 3D software we are able to visualise the entire installation in its interior. We then elaborate on this proposal down to the last detail, including the preparation of technical documentation for production itself. We can be proud of the fact that the majority of the manufactured parts are the result of work by our skilled craftsmen. The company has a modern metal workshop where our specialists are able to construct even the most demanding metal structures for our installations.

ARTGLASS cooperates with most Czech glassworks, both in the production of chandeliers with classic trimmings or when working on special installations. Our lighting installations use modern lighting technology and lighting control to enhance the beauty of our glass while meeting all the lighting requirements of the room. All of our products meet the required standards and regulations and are certified by renowned global testing laboratories. Our goal is to introduce the beauty of Czech glass and the art of our people, whose work we are so proud of, to the whole world.

LOOKING BACK AT THE VIETBUILD EXHIBITION

It has become a tradition for us to exhibit at the VIETBUILD International Exhibition in Vietnam. This time we bring you a look back at the November exhibition in Hanoi, in which we took part with our partner from 23 to 27/11/2018. We would like to thank you for the very positive reaction to our exposition, the interest in our products and our cooperation so far. We are looking forward to your inquiries and to the future further cooperation.

INTRODUCING ZEPHYR

Zephyr, inspired by the traditional Marie Therese chandelier, is inspired by bells in the wind. This is a fresh combination of tradition and craft from the point of view of a contemporary designer.
