ARTGLASS  
CHANDELIERS FROM BOHEMIA

## ABOUT ARTGLASS

ARTGLASS Ltd. is a purely Czech pro-export corporation that is growing dynamically without foreign capital. The company operates in 45 global markets and is continuously working towards entering new ones with humility and respect. ARTGLASS has been active in the market for 25 years with great success, and has the vision to become a world producer of original and design-led lighting made from high-quality materials with a high proportion of manual craftsmanship. The company currently employs around 100 qualified employees and works very closely with renowned Czech glassmakers and world-famous designers. ARTGLASS's great strength is the company's in-house team of progressive designers, whose original and unique ideas in terms of high-quality design now adorn countless interiors around the world. After 25 years of continuous development it is currently possible to divide the production programme at ARTGLASS Ltd. into three branches: firstly, the production of traditional Czech crystal chandeliers – we are a proud follower of more than 500 years of tradition in chandelier production in the Czech Republic; secondly, custom lighting – lighting projects for private residences, religious buildings (churches, temples, mosques), restaurants, hotels, etc. We offer our clients a comprehensive solution for lighting, from the design and consultation phase through to advice and assembly. We have a specially trained team of assemblers who install our products in clients' premises around the world. Finally, modern design collections – our original vision of transforming a project installation into a smaller model that will suitably complement a modern home. These contemporary design collections are displayed in all their glory in our new „Vision“ catalogue, which can be downloaded at [www.artglass.cz](http://www.artglass.cz).

## PRODUCTION

ARTGLASS is constantly investing in its development, new technologies and the skills of its employees. Lighting designs and models are created in our own design studio, which is equipped with state of the art technology. Using 3D software we are able to visualise the entire installation in its interior. We then elaborate on this proposal down to the last detail, including the preparation of technical documentation for production itself. We can be proud of the fact that the majority of the manufactured parts are the result of work by our skilled craftsmen. The company has a modern metal workshop where our specialists are able to construct even the most demanding metal structures for our installations.

ARTGLASS cooperates with most Czech glassworks, both in the production of chandeliers with classic trimmings or when working on special installations. Our lighting installations use modern lighting technology and lighting control to enhance the beauty of our glass while meeting all the lighting requirements of the room. All of our products meet the required standards and regulations and are certified by renowned global testing laboratories. Our goal is to introduce the beauty of Czech glass and the art of our people, whose work we are so proud of, to the whole world.

## INTRODUCING

### "A CLUB" PROJECT, SPIEZ, SWITZERLAND

At the end of 2018 we equipped with ARTGLASS lighting fixtures an elite night club "A CLUB" in Spiez in Switzerland. Chosen lighting fixtures emphasize the luxury of a VIP club with their classical design and at the same time they harmoniously fit into a modern night club.

## INVITATION

ARTGLASS AT EUROLUCE 2019

This year we are exhibiting at EUROLUCE for the first time. We would like to invite you to visit our stand with our brand new fixtures designed especially for this occasion. We are looking forward to see you at our stand N31 P36.

# Euroluce

**9-14 April 2019**

**STAND N31 P36**

## INTRODUCING **LUMINIS**

From Particles Collection

Designed by Veronika Šindelářová

Luminis is the light of the sea, a proof of the sophistication of nature, is the inspiration for a lighting installation that shows the elusiveness of the beauty of glowing organisms that can light up the oceans. They possess great fragility and, at the same time, strength. All these aspects are hidden in the glass, which has become the core material of the installation. Nature is an inexhaustible well of inspiration and it is up to us whether we appreciate it.
